

Strata Energy Services recognise Quality, Health and Safety and Environmental Management as an integral part of its management function. Strata Energy Services scope of practice include being a fully integrated provider of oilfield services with focus on managed pressure drilling, underbalanced drilling, specialized product manufacturing and assembly in accordance with API Q1 and API 16RCD. Strata Energy Services is committing to performing all activities in a financially viable manner with considerations paid to all stakeholders, including shareholders.

Strata Energy Services strives to ensure a high level of customer satisfaction through continual measurement and improvement of the quality management system, our processes and the assurance of Strata Energy Services product conformity to customer, legal, statutory and regulatory and/or industry requirements.

Strata Energy Services is committed to managing quality and safety excellence across all aspects of our business with continual improvement of our quality management system

Strata Energy Services is committed to achieving and maintaining the highest possible quality of our products, services and suppliers. We will communicate our quality objectives and our performance against these objectives throughout the Organization and to interested parties.

Ken Travis
President
